### PERSONAL STATEMENT

---

An ambitious self-starter with the ability to confidently turn my hand to any given task. Started out as an efficient and resourceful Project Manager and then recently developed my skills in programming to become a Software Developer. Predominantly working with the Digital sector, delivering technically robust solutions for clients across a multitude of industries. Excellent people skills with internal stakeholders and clients, thrive under pressure and enjoy being part of a team. Outside of work I enjoy cycling, cooking and entertaining.
